8. STRATEGIC RECOMMENDATIONS

- ◆ Double down on Electronics Q4 campaigns — Nov/Dec Electronics revenue (Rs. 595–683 L) is 2x Jan–Feb; pre-stock inventory by September.
- ◆ Invest in West & North expansion — highest regional multipliers; replicate playbook in Central/East to close the Rs. 2.6 Cr gap.
- ◆ Elevate Home & Kitchen — growing 15% YoY, strong March and December spikes; increase SKU breadth and seasonal promotions.
- ◆ Coach underperforming reps — Arjun Patel and Deepika Menon have high margins but low volume; pair with top performers for cross-selling.
- ◆ Accelerate UPI & Credit Card adoption — 43% of revenue; integrate zero-cost EMI on electronics to lift avg order value.
- ◆ Forecast-based staffing — Jan 2025 dip to Rs. 1.66 Cr is expected; pre-plan capacity for the Feb–Mar recovery ramp.
